SUGGESTED COMMENT.

Money is getting easier to not get.
Boom the One Cent Journal!
Hurray for Newport, Or. That town will celebrate.

Salem is a big town all the week, but a great big one on Saturday's.

Kansas does not seem to be in it—the grasshopper state reports no bank failures.

The Willamette Valley Hop Growers (and a few dealers) organize at Salem today.

To the President, Grover Cleveland: Restore confidence today and you restore business tomorrow.

Of course, all the banks will pay their depositors. That's what they fail for, to protect their depositors.

Banks bust as readily in Oregon and California as elsewhere. The wonderful climate is no protection.

That Gun King of the British war ship Victoria, with 430 souls was a clumsy exhibition of naval skill at best.

A little gold will create a whole lot of circulation when there is plenty of confidence in the bank of the public pulse.

Pay up your WEEKLY and take the DAILY JOURNAL at \$3.00 a year by mail, cash in advance. Many are doing that.

Show the DAILY MAIL JOURNAL at 25 cents a month to your friends. It is the greatest news bargain ever offered the public.

Uncertainty and lack of confidence are bursting banks and causing hard times more than too much silver or scarcity of gold.

That thing is getting monotonous, of all the banks having so much more assets than liabilities that the depositors can't get a cent.

Having fused and swallowed the Populist lamb, the Democratic tiger says he can't affiliate with it, on account of his principles. Great is principle!

The power of one warship to destroy and sink another at one blow was terribly demonstrated in the collision between the Victoria and Camperdown.

If you do not get your DAILY ONE CENT JOURNAL by mail promptly and regularly, notify this office, giving facts about date and day.

THE JOURNAL will have original and reliable hop news every day and every week, covering Oregon, Washington, California and New York, with telegraphic reports from all over the East and London.

Cleveland is continuing the Republican financial policy and that robber McKinley tariff and of course every Democrat swears it is the Republican cause to be blame for present hard times.

It matters not how hard times are, the people want the news. They can get all the news twelve to twenty hours ahead of the Portland papers in the DAILY CAPITAL JOURNAL by mail at 25 cents a month.

If that had been an American war ship that collided with the British man-of-war that sunk, what would have been the result? What would have been the result if an American warship had gone down with 400 Americans aboard.

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a running ear or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY, & Co., Toledo, O. Sold by Druggists, 75c.

Baby cried, Mother sighed, Doctor prescribed: Castoria

THE WHEAT TO LO IT—Is to call round at Clark & Eppley's and ask for some of the superb Nutcracker cream cheese, the daintiest edible on this market.

Little Things That Tell. It is the little things that tell—little brothers for instance, who hide away in the parlor while sister entertains her beau, etc. Dr. Pierce's Pleasant Pellets are little things that tell. They tell on the liver and tone up the system. So small and yet so effective, they are rapidly supplanting the old style pill. An infallible remedy for Sick and Bilious Headaches, Biliousness and Constipation. Put up in vials, convenient to carry. Their use attended with no discomfort.

FROM CHEMAWA.
Exercises at the Indian Training School—Social News Notes.

Commencement day is past and the most interesting and successful by far than any of the former commencement exercises ever held at Chemawa Indian school. Although it was quite a disagreeable, rainy day there was a large delegation from Salem and nearly every one from the surrounding country came in to see the exercises. Thursday p. m. was the most interesting. The program was fully carried out and in the best of shape, showing thorough training and drill. The most entertaining thing on the program, where all was good, was the piano solo by the little tot, Miss Gertrude Brewer, "The Sleigh Ride." The sleigh bells were real and the little miss received a hearty encore and the most enthusiastic applause.

The graduating class was addressed by Inspector Lane in a short but eloquent speech, and after the graduating exercises there was a grand social time in the big dining room that lasted until 11 p. m. It was amusing to see the different expressions of face among the boys and girls when they were paired off in the promenade according to size, and then again where each boy was allowed to pick out his first best girl for a promenade. The change was remarkable. The smiles lit up the whole room like an electric light.

Many of the children go home now. Some stay and some visit during vacation, and the village of Chemawa will be a little more quiet for awhile.

Mr. Cannon, who had Mr. Kelly's place rented and was sick so long, has sold out and gone to Los Angeles, Cal.

Mr. Gilbert is making hay but the rain has stopped operations.

F. J. Beatty says he has the best orchards in the valley. The 6 year old prunes will make over two bushels of fruit to the tree this year.

Mr. Tillman Ford has let the contract of grubbing out his Lake Labish farm to Wm. Goodrich and will soon be a full-fledged granger as his beaver dam land will be making him so much money that he intends to abandon the law and join the grange.

S. G. Pugh is away from home on a trip over the west side counties for pleasure. He is an old Indian war veteran but is not putting in any time howling for a pension. He was very near death from measles when out in the Indian country, but the company he was in was not so badly hurt by the savages as by bad food, exposure and sickness.

J. R. Fairbanks from Nebraska has bought the Will Masson place and is now enjoying our webfoot weather and fruit.

Interesting Letter From One of Lane County's Hop Growers.

EUGENE, June 24, 1893.
EDITOR JOURNAL.—I will be pleased to favor you with information about the hop crop.

Oregon is rated first as a hop producing state of the coast. Salem being central is a convenient place for hop news. Of course your information must be reliable, and that is the kind of a report I will give from this district. I see you publish the general news from Washington, California, and New York. The market is very quiet here and news is a scarce article. The coming crop is very backward in this county. Lice have appeared in small quantities. No spraying has been done yet. There still remains 200 to 300 bales of the 1892 crop left unsold in Eugene.

Little Things That Tell. FASHION'S FANCIES.
In millinery black hats for the moment dominate the mode.

One of the most attractive and desirable styles for traveling wear is the new empire princess costume.

The newest skirts, made with three bias ungathered flounces lapping one above the other, are far more fashionable than they are pretty.

Tuscan hats, after a period of banishment, are once more acceptable. They are frequently trimmed with color to match, but this is very trying.

Very useful to take the place of wash dresses for the summer are those of tulle, these being excellent for wear in every sense—cool, not easily soiled and most enduring.

There is a beautiful exhibition of Indian silks for summer wear. Grounds of Parma violet, dove gray, fawn color, cream, pink and silver blue are strewn with lovely flowers in contrasting hues, and the number tan, doe color and pale golden mignonette green silks, with fine gay pompadour devices in copper, silver and tea rose.—New York Evening Post.
